幸福×永續×大成長

打造創育產業新活力

根據《2018年中小企業白皮書》發布資料顯示，2017年臺灣中小企業家數為143萬7,616家，占全體企業97.7%；中小企業銷售額12兆1,395億元，占全體企業30.22%，成長率由負轉正。2017年新設中小企業（成立未滿一年）家數為10萬1,556家，占全體新設企業的99.85%，較2016年增加6.54%，顯示新設企業的蓬勃發展為臺灣經濟發展及技術創新帶來更多的可能性。

經濟部中小企業處(以下簡稱本處)自1997年開始推動育成政策，至今已累積豐碩成果。歷年來曾獲本處補助創育機構共計143所，截至2018年12月底為止，累計投入金額為34.384億元、培育15,649家中小企業、誘發投增資金額1,588億元、育成新創企業9,223家、新增/維持就業人數達309,225人、協助育成企業取得專利4,472件、技術移轉2,120件，並已有121家育成企業上市/上櫃。

中小企業是維繫台灣經濟發展的重要基石，經多年努力逐步建構出獨具台灣特色的創育產

業生態系，育成中心長期以來是本處協助各地中小企業很重要的平台，然因應現今時代的變革、整體產業結構轉變、新創事業發展需求，本處積極推動育成中心轉型，引導既有「育成中心」轉型為「國際創育加速器」、「技術創業放大器」、「在地產業創生機構」三大類型創育機構，鏈結在地及國際資源，以支援創新創業輔導系統。

而為建構完善創育產業生態系，推動產業之創新與發展，本處除透過補助中小企業創育機構外，更透過「推動創育產業生態」、「厚植創新創業能耐」及「翻轉新創鏈結國際」三大推動策略，厚植創育體系，打造亞太創業生態網絡。在「推動創育產業生態」策略上，透過結合民間產業資源，加速創新成長；積極打造國際盛事，輔導我國新創企業進入國際舞台，推廣台灣新創國際形象及典範；同時促進育成轉型，穩健營運力。在「厚植創新創業能耐」策略上，匯聚知能服務資源，加值創育服務能量帶動新創成長；另透過網實整合培育創業人才，並開放政府採購市場協助新創商業試煉。在「翻轉新創鏈結國際」策略上，建構國際創業園並提供全方位服務支援系統，同時積極發展社會創新。

未來本處將在政府「5+2」產業創新、新南向、地方創生等上位政策的引導下，協助中小企業朝「幸福×永續×大成長」的目標加速邁進。在「幸福的目標」上，與地方政府合作，加大市場行銷資源，輔導微型企業善用科技力來展現行銷力，營造在地幸福感；在「永續的目標」上，強化環境及經營永續，並持續推動社會創新，建構社會企業永續發展的生態系統；在「大成長目標」上，著重協助中小企業升級轉型、推動高成長中小企業發展及國際市場拓展，並鏈結全國創新創業支援體系，完善創業生態系統，讓「MIT-inside」融入全球化經濟，共創大成長目標。

Happiness × Sustainability × Big Growth

Showing New Energy of Incubation Industry

According to data published in the 2018 White Paper on SMEs in Taiwan issued by the MOEA SMEA, there were 1,437,616 SMEs in Taiwan in 2017, which accounted for 97.7% of all businesses in Taiwan. Sales revenue from SMEs amounted to NT\$12.1395 trillion, which accounted for 30.22% of business sales in Taiwan, showing an upward turn in the growth rate. There were 101,556 newly established SMEs in 2017 (meaning SMEs with less than a year of establishment), which accounted for 99.85% of all new enterprises in Taiwan for that year. Compared to 2016, this represented an increase of 6.54%. The increase of SMEs in Taiwan shows that there are many possibilities for economic growth and technical innovation in Taiwan.

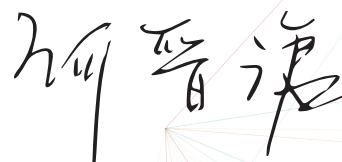

The SMEA began implementing its incubation policy in 1997. Fruitful results have been yielded since then. Over the years, 143 incubators received cumulative subsidies of NT\$3.4384 billion from the SMEA, and 15,649 SMEs were incubated and 9,223 innovative enterprises were incubated, sustaining and increasing over 309,225 job opportunities, 4,472 patents and 2,120 technology transfers have been made, including over NT\$158.8 billion incremental investment and assisting 121 enterprises in becoming Initial Public Offerings (IPO).

SMEs form an important basis for the continued economic growth of Taiwan. Several years have been spent building an industrial incubation ecosystem possessing unique Taiwanese characteristics, and incubation centers have long been an important platform over which the SMEA has assist SMEs all over Taiwan. Responding to current changes, transformations in overall industrial structure, and demand for development of innovative undertakings, the SMEA has actively promoted the transformation of incubation centers. It has incorporated three categories of incubation institution transformation, namely "International Startup Accelerators (ISA)", "Technical Entrepreneurship Amplifiers (TEA)", and "Industry Co-Creation Network (ICN)". These categories connect local and international resources to support innovative startups with guidance systems.

The SMEA has provided aid to SME institutions to create a complete industrial incubation ecosystem and further promote the development and innovation of industry. Moreover, it has applied three strategies, namely "promotion of industrial incubation ecosystems", "strengthening the abilities of innovative startups", and "transitioning innovation to international connections", with the aim of edifying the innovation incubation system and creating a startup ecosystem network for the

Asia Pacific region. "Promotion of industrial incubation ecosystems" refers to the acceleration of innovation through linking with resources from the private sector. Aiming to create an international boon, it guides startups in Taiwan onto the international stage and promotes the innovative image and example of Taiwan to the rest of the world, while also promoting incubation, transformation, and steady operational ability. "Strengthening the abilities of innovative startups" refers to the driving of innovative growth through the collection of smart service resources and added-value incubation services, as well as helping innovative enterprises through their trials by integrating online and offline incubation talent and opening up the government procurement market. "Transitioning innovation to international connections" refers to the establishment of international startup parks and providing a comprehensive service support system, while also actively developing social innovation.

For the future, under the direction of top government policies and initiatives, such as the 5+2 Industrial Innovation Plan, New Southbound Policy, and regional revitalization, the SMEA will help SMEs to quickly develop toward the triple objective of "Happiness, Sustainability, Big Growth." The "Happiness" objective means cooperation with local government, broadening market sales resources, guiding micro-businesses in the proper use of technology to realize sales potential, and creating happiness for local communities. The "Sustainability" objective means strengthening the environment and operational sustainability, while also promoting social innovation and building an ecosystem that facilitates the sustainable development of society and enterprises. The "Big Growth" objective means a focus on assisting SMEs in transformation and upgrading, promoting high growth of SMEs and international expansion, as well as connections to the national innovative startup support system, completing the startup ecosystem, allowing MIT-inside to enter the global economy, and thereby cooperatively attaining the goal of big growth.
